

Proposal for Comprehensive Student Health Program

Powered by DocBot School Health Pod

About Us

DocBot is a flagship product of **DocBot Private Limited**, a pioneering **health-tech** company based out of **Pune, India**.

-  Our products are built to the **highest international standards**, including **CE** and **FDA** certifications.
 -  We are a **DPIIT-recognized startup**, proudly contributing to India's digital health ecosystem.
 -  Our vision is to **revolutionize preventive healthcare** in schools through intelligent automation, real-time diagnostics, and personalized health planning.
-

Objective:

To introduce the **DocBot School Health Pod**, a tech-driven, AI-powered solution designed to deliver **comprehensive preventive healthcare** to students aged **2 to 18**, in perfect alignment with the **National Education Policy (NEP) 2020** and CBSE wellness goals.

What is the DocBot School Health Pod?

The **DocBot School Health Pod** is a self-contained digital health unit that conducts:

- Automated Health Assessments
- Personalized Reports & Guidance
- Mental and Physical Health Screening

- Nutrition & Lifestyle Risk Evaluation
- Real-Time Reporting to Parents
- On-Site Nurse Support and Medical Tie-Ups

It's a one-stop wellness solution designed to empower schools and parents with the **tools to ensure early detection, timely action, and lifelong well-being.**
